GAME AND POULTRY NOT SO STEEP.

The Demand for Ocean Products Keeps Pace With Supply.

FLOWERS STEADILY MOVING UPWARD

OFFICE OF PITTSBURG DISPATCH, }
FRIDAY, December 6, 1880.

Market basket filling has undergone few changes since last Saturday. At the Dismond market stalis trade is reported quiet for the past week in fruit and vegetable

Home raised encumbers, onions and mushrooms are to be had, but prices will make a serious impression upon the ordinary purse.

Florida oranges are now in good supply and quality shows a decided improvement on receipts of a week or two ago.

Since Thanksgiving times there has been a lull in poultry demand and prices are a shade lower. The Christmas turkey, however, promises to be more expensive than that for Thanksgiving, as nearby crop is scarcer than it has been for many years.

Eggs Still in Great Demand. Fresh laid eggs are unusually scarce, and a mure shot article in this line brings the outside quotations. Game is abundant and cheap. Quail and rabbits are not often as low as they have been in the past week or two. The farmers have sold as low as 75 cents per dozen, and at this figure are cheaper than beef. Game has been selling lower at Pittsburg the past week than at Chicago or St. Louis. Our soft weather has had a depressing influence on game nitry.
ocean fruits demand is equal to supply,

As to ocean fruits demand is equal to supply. The catch of fresh fish is near its end for this season, and the time for the frozen article is at hand. The syster crop is reported below average and Baltimore dealers hold their stock very firm. Large quantities are going to Europe, and our dealers here report that choice stock brings no better prices at Pittsburg than at Baltimore.

The Boom in Flowers.

In floral lines prices have taken a sharp turn upward the past week, as our quotations will lisclose. The upward drift is expected to continue until Christmas and after from all former experiences. Society events are making heavy demands on flowers, and, notwithstanding adthe manus on hower, and, nowthstanding advance in prices the goods are going out so freely that the capacity of florists to deliver goods is fully tested. The supply on Christmas week has not for many years been up to demand. Following are the retail prices of market basket materials as furnished by leading dealers: Monts.

The best cuts of tenderloin steak range from 20 to 25c, with last figure for very fancy; sirioin, best cuts, from 15 to 18c; standing rib roast, from 15 to 20c; chuck standing rib roast, from 15 to 20c; chuck roast, 10 to 12c; best round steaks, 15c; boiling best, 5 to 8c; sweet breads, 20 to 50c per pair; beef kidneys, 10c apiece; beef liver, 5c a pound; calf livers, 25c apiece; corned beef from 5 to 10c per pound. new in the situation, the principal reason for this action on the part of the shorts was claimed

to be that the market did not decline as easily

sure of 1,000 pounds to the inch yesterday. He stated that the gripman of car 209, Pitts-

burg Traction Railway, took hold before he,

Rebman, had secured a lodgement, and he

was dragged nearly 100 yards. When the car was finally stopped Mr. Rebman's hat was in the rear some distance, and he was exhorted to go back and get it and take another car. Mr. Rebman stated that late in the evening he still felt considerably elongated and correspondingly sore, and that the job of cleaning his clething had occupied two people a considerable portion of the day.

INDUSTRIAL ACTIVITY IN THE SOUTH

ber Trade Preparatory to

The local lumber trade seems to be firmly established on a winter basis and is likely to remain in a comatose condition until after the holidays, or toward spring. The bad condition of the country roads has also served to lessen the demand. Dealers are private cables quoted spot wheat as opening weaker and Mark Lane was quoted firm. Private advices generally quoted markets on the other side as quiet and firm. The board dispatch quoted ½0 decline. The receipts in the Northwest are still on a liberal scale. The movement has rather exceeded the expectations of operators, who had generally looked for a material falling off.

Corn—A moderate business was transacted within a narrew range. The feeling early was rather easy, but as the session advanced a better tone was developed, though values showed no material advance, except December, which was stronger, closing at the outside. The market opened at yesterday's closing prices, was easy for a time, selling off ½1/40, became firmer, advancing ½61/40, ruled steady and closed ½61/40 better than yesterday. It is understood that there has been considerable buying of December in a quiet way the past few days, supposed to be for Eastern account. Oats were quieter and rather steady. A moderate number of buying orders were received from New York. A prominent local operator was also a buyer. On any advance, however, the latter sold freely. His trading held the market.

Pork—There was rather more doing and a making no effort to push business this winter, but are looking ahead to next year when a great building boom is confidently expected. Hence stocks have been permitted to run down, and there is no disposition to replenish them at once. Prices are

nchanged, but rather weak. The season's business has been the heaviest in the history of the lumber trade in Pittsburg. amounting to between \$5,000,000 and \$6,000,000. Last year it was about \$4,000,000. This city is rapidly becoming one of the great lumber marts of the country.

The Beaver Falls, College and Metamo Street Railway Company, of Beaver Falls, has made a contract with the Thomson-Houston Company for the equipment of their new elec-tric read, which will be about four miles long. Mr. J. C. Whitla is President of the company. The line will probably be in operation by next spring.

Judging from the large number of natural gas companies that are being organized in different parts of the country, fears that the supply will soon give out are not very widemaintained.

Lard—The market was stronger, and prices ruled about 5c higher.

Ribs—A fair trade was reported, and the feeling was stronger. Offerings were insufficient to meet the demand and buyers were compelled to pay about 5c advance to fill their orders. spread. > The Commoner and Glassworker states that the representatives of a corporative concern from Pittsburg, who were at Marion, Ind., a few days ago, were well pleased with the Kiley-Corbett syndicate site, west of town. Free land and gas are offered, and the Pittsburg people have signified their intention to accept. If the deal goes through the company will put up two fire-proof buildings. The line of goods to be manufactured will be bottles.

There is great activity in the organization of enterprises in the South. Florence, Ala., is in the lead, with investments by Philadelphia and New England capitalists, including a \$500,000 cotton mill, a furnace to cost \$300,000, to be built by Philadelphia men, and to be known as the Philadelphia Furnace, and a \$300,000 loan and banking company; while \$1,000,000 in cash has been invested in the stock and land of the local improvement companies in Florence by the same capitalists. In Florida a contract has been made for constructing a 300-mile canal, to furnish a water-way nearly the entire length of Eggs, 12@23c.

At Bessemer, Ala., two new fur-naces, to cost \$400,000, are to be built. At Brierdeld, Ala., iron works are to be re-organixed with \$500,000 of bonds and \$700,000 of preferred stock. At Rome, Ga., a \$125,000 furnace is to be built. A steel-plate mill is to be built in West Virginia, a \$200,000 clothing factory in Baltimore, and extensive fertilizer works in Norfolk, Va.

The utmost activity prevails in the mining regions through Marcar and adjoining accounts. Baltimore, and extensive fertilizer works in

in West Virginia, and more men are employed than ever before. The total production of coal in this basin is about 100,000 tons per month, of which amount the Turkey Gap mines get about 25,000 tons. About 1,000 coke ovens are in operation and 200 more are building, 100 of the number being erected by the Powhattan Company. These latter will be fired in about a week.

It is estimated that during the past year the Monongahela Valley has furnished 125,000,000 bushels of coal. Nine-tenths of this was shipped prior to May of this year, the remaining onetenth, or 12,000,000 bushels, represents the amount of coal mined from that time up to the present rise in the rivers. In other words, it represents the work of the Monongahela river sers for the past six months.

PHILADELPHIA RALLIES.

An Upward Movement Showing the Stock Has Some Friends. A sharp advance in Philadelphia Gas was the feature of the stock market yesterday. Just what was behind the turn could not be discovered, but some said it was due to the determination of large holders to sustain the property.
Others laid it to an increase of orders. At all
events, the improvement shows a degree of
confidence in it which was not thought to exist.
Wheeling and Pennsylvania Gas were weaker. Linster continued its upward movement on the strength of recent favorable news from the

BUSINESS MEN RATTLED.

The Clearing House Business Cut Down

Through Their Neglect. Business of the Clearing House showed a decrease yesterday of about \$400,000, as compared with the previous day. It was accounted for by the Monongahela House fire and rainy weather rattling the business community to such an extent that they forgot, or neglected, to make their customary deposits. One bank which usually turns in \$50,000 or \$80,000 had only \$8,000. General business was as active as ever.

There was the usual good demand for money at the regular rates, and continued scarcity of currency. Considerable coin was used in settling Clearing House balances. Clerical business, as stated, was rather slack. The exchanges were \$1,94,745 12, and the balances \$813,772 40.

Money on call at New York yesterday was easy, ranging from 5 to 6 per cent; last loan, easy, ranging from 5 to 6 per cent; last loan, 6; closed offered at 6. Prime mercantile paper, 5½67½. Sterling exchange quiet and steady at \$4.80 for 60-day bills and \$4.84 for demand.

Petroleum Opens Wenk, but Braces Up and Closes Firm.

The oil market opened weak and closed strong yesterday. The first quotation was 102%, highest, 104%; lowest, 102%; closing, 104%. New York and Oil City were sellers. Pittsburg was the best buyer, and scooped the crowd. It was the best business day for a long time-that is, there was less peddling and realizing on fractions. The feeling at the finish was favor-

fractions. The feeling at the finish was favorable to a further rally to-day. There was no important outside news. Friday's clearances were 1,504,600 barrels.

A prominent operator says of the Eureka, W. Va., district: "The district has been greatly overestimated in its magnitude, its output and its future. The defined field covers an area of about four acres, and is a very treacherous territory. Moore & Barnesdale's Big John well, which is located on the Hammat farm, is now making 180 barrels per day and is situated between two dry holes 2,000 feet apart. The total production of the field from 12 wells amounts to about 400 barrels. The operators are working on an east and west line, and how it will result remains to be seen. Considerable land is being leased or rather tied up at small yearly rentals.

A dispatch from Washington, Pa., says: The strike that the Washington field has been expecting for the past six months was made last evening in the Brown-Agnew well, which is situated south of present developments, and opens up the Northern field. It is considered one of the most important in this locality and one of the most important in this locality and will induce an enormous amount of drilling.

A BULLISH SENTIMENT Developed in the Share Market as a Result

of Easier Money-Advances All Along the Line, With No Declines. NEW YORK, December 6.-The stock marke was both more active and decidedly stronger than on any other day for sometime, and the strength attained to the condition of buoyancy toward the close of the day. The upward movement met with no material setback,

though the progress made was comparatively slow in the forenoon, and while some stocks advanced rapidly and suddenly, the general list steadily appreciated without any sensational movements. The heavy bond purchases

tional movements. The heavy bond purchases to the past few days and the perceptible easing up of money at this center did much to engender a bullish sentiment, and this morning the temper was very pronounced in favor of an upward turn.

The foreigners were liberal buyers again after sending higher figures from London, and the number of new buyers in the market frightened the shorts into covering on an extended scale, and the last named influence was very marked. Dividends upon the Clevoland, Columbus, Cincinnati and St. Louis stocks and Sugar Trust aided in giving an impetus to the advance, but the buying of operators so recently prominent upon the bear side was specially influential among the trading element and they were all working on the bull side to-day. Even the Coal stocks showed marked strength, but Missouri Pacific, Union Pacific, and New England led in the general list. New England was apparently advanced by the same party who so recently have been engaged in depressing the stock and the buying in Missouri Pacific was said to be for inside account.

There was a large demand for Sugar in the loan crowd, and the short interest in the stock is as large as m any other stock traded in. Cleveland, Columbus, Cincinnati and St. Louis after opening up over 1 per cent shot up 1½ further, but falled to move after that until the

Cleveland, Columbus, Cincinnati and St. Louis after opening up over 1 percent shot up 1½ further, but failed to move after that until the afternoon, when it retired, losing all but the opening gains. In the last hour Lackawanna and New England were leaders, and the former crossed 140 again. The market finally closed active and strong at the best prices of the day. Almost everything on the active list made important gains, and there were no declines whatever.

portant gains, and there were no declines whatever.

Railroad bonds also felt the stimulus of the change in the temper of the speculation and kept pace with stocks in the increase in activity as well as strength. The sales of all issues were \$1.682,000, of which the Gulf. Colorado and Santa Fe firsts contributed \$256,000. The tone was strong throughout and the declines this evening are few in number. Reading seconds rose 2% to 57% the thirds 2% to 48, and Shenandoah Valley firsts 2% to 112%.

The Post's review says: The stock market was stronger again this forenoon, and though it is still almost entirely what is called, "A boardroom traders' market" a good many of the daily speculators were apparently disposed to anticipate the advance which everybody conceded is likely to come in January. The advance, however, was largely due to the covering of shorts, and to that extent is a temporary cause. The bears had hammered the market all the first four days of this week. On Monday they were successful in uncovering stop orders and bringing out a good deal of long stock, but since then the market has shown more resistance every day. But aside from the spart of prices caused by the covering of shorts, there is a more substantial advancing tendency.

Under the present circumstances of large

Under the present circumstances of large railroad earnings and the abundance of money in Europe seeking investment in the United States, it would be strange if prices of securities did not advance sooner or later. Unless there is some manipulation of the local money market there can scarcely be any cause for higher rates than the present any time for the next four months, and as for railroad earnings.

higher rates than the present any time for the next four months, and as for railroad earnings, they were as good for November as the most sanguine speculators could reasonably have hoped for. Up to noon to-day 30 roads reported their gross earnings for the month of November aggregating \$15,188.264, against \$13,516,163 in 1888, an increase of 12 3-10 per cent.

are not an uncommon sight on the streets of Southern cities. It appears that the jute men put a feather too much on the camel's back. THE Northern Pacific earnings for the month of November amounted to \$2,220,941, an increase compared with same time last year of \$322,330 on an increased mileage of 72½ miles. It is reported that a Pennsylvania iron manufacturer will move to Buena Vista, Va., and establish an iron furnace. Mr. Jones, of Lynchburg, is said to be negotiating to locate a rolling mill at the same place.

St. Nicholas Hotel property, corner Grant and Fourth, will probably tear down the old struc-ture and erect in its stead a five or six story law building. The price paid was \$80,000, or \$1,000 a front foot. For three months of the present crop year

receipts of wheat at Duluth were 12,117,200 bushels, against 2,337,303 for the same period last year. A similar condition exists at Minneapolis. This is where St. Paul and other Granger roads get their large earnings. A PROMINENT real estate agency on Fourth Avenue a few days ago advertised in THE DISPATCH two three-roomed houses for sale in the Fourth ward, Allegheny. The next day they had over 50 applications for them, and finally sold them at an advance of several bundred dollars over the original price. This shows how great the demand is for this class of dwellings.

A New steel enterprise has just been inaugurated in the city under the name of Kingsland Steel Company, of Pittsburg. The projectors are well known business men, who are at present quietly perfecting all arrangements to commence operations at an early date. The question of site, charter, etc., will be settled at an adjourned meeting to be beld at the office of the company next week. It is understood that the firm of James W. Drippe & Co. has complosed all preliminaries in this transaction.

Go This Time? It was stated yesterday by a respectable and veracious man, Mr. Charles Wilson, that a new enterprise was on foot in Coraopolis. Mr. Wilson said he had heard that a man named Young was about to establish works of some kind in the village, and to occupy the plant originally designed for the novelty works. Mr. Wilson further stated that he had been told that the Town Council had agreed to exempt Mr. Young from taxes for five years from date of taking possession, on condition of his doing certain things in

to settle there. A number of people, inhabitants of Coraopolis, were seen, among them Mr. Smith, of Normecutt & Co., and Mr. Dally, of the Wheeling Gas Company, but they said they hadn't heard of the matter. The persons in interest could not be found.
